

Software Test Engineer (QA) (m/f)

Careers at
bitpanda

Employment: Full time
Start: As soon as possible

Who we are

Bitpanda is **Europe's leading digital asset platform** (e.g. Bitcoin, Ethereum & co) and one of the fastest growing FinTechs. We have the vision of creating an eco-system that allows a simple entry for beginners and an optimised usability for the advanced users. For this, we constantly work on new innovations and see ourselves as **pioneers for the future financial and payment industry**. To achieve our visions of the future, we work closely with financial services, banks and several trading platforms. Bitpanda is a visionary and rapidly expanding Start-Up, which is why we are looking for **highly motivated and tech-savvy team members**, who share our vision and choose to help and shape the future of the emerging FinTech industry.

What you will do

- ✓ Develop test plans and execute test cases for assigned features
- ✓ Develop automation frameworks, tools and security testing scripts to replace manual test cases when possible
- ✓ Work alongside the software engineering team to test and validate new code to fix bugs and implement new features
